About

Hi, I am recent Computer Science graduate with a software development learnership at Capaciti, I possess a versatile skill set encompassing languages like Flutter, Dart, Arduino, C++, VB.NET, Java, and Python. My adaptability, fostered through experiences like the MTN App Academy and hackathons, enables me to navigate diverse programming environments effortlessly. Beyond coding, I find relaxation in watching football and engaging in FIFA gaming during weekends. Eager to contribute my technical proficiency and passion for innovation to challenging software
